

Dear Parents:

Salinas Valley Health is excited to invite your child to participate in our Asthma Camp! This camp is the only summer program in Monterey County specifically designed to educate children about asthma in an informative, engaging, and fun environment. Our camp provides children with the necessary tools to take control of their asthma.

Your child will gain valuable knowledge about their condition and develop better coping skills for its challenges. The program includes five daily educational sessions. These are structured around our custom workbook, which features comprehensive explanations of various topics, fun camp activities, and a section dedicated to parent education. The benefits from this program will be immediate for both you and your child.

Asthma Camp is fully funded by donations from the Salinas Valley Health Foundation through our local Children's Miracle Network Hospitals Program. We are grateful for the support of donors and our Salinas Valley Health physicians and staff, who help make this camp possible. We encourage you to take advantage of this opportunity to empower your child and help them lead a healthier, more active life. Visit SalinasValleyHealth.com/asthmacamp or call 831-759-1890 for more information (note there is a \$10 registration fee).

We look forward to an exciting week filled with learning and fun at our Asthma Camp, and we hope your child can join us for an enriching and educational experience.

Sincerely,

Allen Radner, MD

Childhood Asthma Control Test for children 4 to 11 years.

This test will provide a score that may help the doctor determine if your child's asthma treatment plan is working or if it might be time for a change.

How to take the Childhood Asthma Control Test

Step 1 Let your child respond to **the first four questions (1 to 4)**. If your child needs help reading or understanding the question, you may help, but let your child select the response. Step 2 Write the number of each answer in the score box provided.

Step 3 Add up each score box for the total.

Step 4 Take the test to the doctor to talk about your child's total score.

**19
