CCAMG, Inc. is a private established group of sixteen board certified anesthesiologists looking to expand by one full time general anesthesiologist serving one hospital and three surgery center locations. Our cases are a mix of all specialties but no major trauma and only minor pediatric cases (ENT, general surgery, orthopedics). Those who wish to showcase regional skills can and will be requested to do so for general, orthopedic, vascular, breast, and thoracic cases.

We are a family-friendly anesthesia practice where all members have equal access to both work and vacation from the onset which allows for significant scheduling flexibility. Current partners are graduates from programs such as UCSF, Stanford, UCLA, University of Washington, MGH, Columbia, NYU, Cedars-Sinai, and Medical College of Wisconsin. Fellowship training includes Pediatrics, Regional, Cardiothoracic, and Critical Care.

Members typically take 6-10 weeks of vacation per year. Call would be 1 in 15 for each first and second call. Compensation is \$600,000-\$800,000/year under a 1099 structure. This grants individual members significant autonomy with regards to total number of days worked and allows customized benefit packages to suit each physician. The track to partnership is 18 months with no financial buy in. This lucrative ownership track leads to further profit sharing, voting rights, and leadership positions within the group and hospital. Signing bonus for strong candidates committed to serving our wonderful community.

Our group has been stable with an exclusive hospital contract for more than 20 years. The hospital is a bulwark of the Salinas Valley and beyond which houses major produce and packaging companies including Dole, Taylor Farms, Driscoll, and Foxy Farms.

Salinas is located in Monterey County, less than 20 minutes from Monterey and Carmel, one hour from San Jose and two hours from San Francisco. We are also within easy weekend driving distance of Napa, Lake Tahoe, Santa Barbara, Yosemite, Big Sur and Los Angeles. Monterey has its own airport with daily direct flights to many major US cities. World class beaches, golf, racing and food and wine are available throughout the year with our beautiful temperate weather.

Per diem/part time position(s) are also available upon request.
